Fast-charging

ONE PACK (CATL Cell)

ABSOLUTE INTELLIGENT SAFETY

Comprehensive safety system to ensure your every journey.

Blind Spot Monitoring (BSM)

Blind Spot Monitoring System uses radars on both sides of the vehicle body to detect vehicles in blind spots, providing visual and audio alerts.

Forward Collision Warning (FCW)

Alarm on when it detects a potential collision with the vehicle in front of it via a front-facing camera.

Adaptive Cruise Control (ACC)

Adaptive Cruise Control uses radars to help your vehicle maintain the same speed as the vehicle in front.

Intelligent High-beam Control (IHC)

When the high beam is on, the camera detects oncoming vehicles up to 500m away and automatically switches to low beam to maintain clear visibility without affecting the other driver.

Autopilot L0-L5 Classification

DARING & UNIQUE

Make all eyes on you with the bespoke and statement design of MIFA 9.
